TRAILERS 2000™

AUSTRALIA'S FAVOURITE TRAILER

These large enclosed aluminium bodied luggage trailers have an incredible high gloss high quality finish as good as any motor car finish, the polished checker plate around the base is a real feature and adds to the outstanding finish of this trailer. The strong and durable trailer is standard composite aluminium body, galvanised steel chassis and frame, mechanical override brakes, new wheels and tyres and LED lights. The lift door is sealed and is fitted with heavy duty stainless steel hinges, gas struts and flush mount locks. Side doors are an option that can be added to this trailer range and they are available in a variety of standard colours including white, red, black, blue, green and silver. This enclosed trailer really is a winner and is made with more size and more carrying capacity, the large enclosed trailer is big and it's tough. It is also designed with practicality in mind. The lift up or side opening rear doors make loading and unloading easy and the flush mount locks add security to your goods. Rust free and built to last our trailers come with unbeatable 2 year Warranty and FREE 2 years Roadside Assist. Australian made and ideal for a huge range of transportation needs these trailers are available in 8 x 5, 9 x 5, 10 x 5, 10 x 6 and 12 x 6 sizes and special sizes can be made to order. You have options for different types of suspension and braking systems and the capacity ranges from 2000kg up to 3000kg GVM. Choose from heights of 1500mm and 2000mm and if you require you can add ladder racks and lift-up side doors with gas struts on some models. Once you know exactly what you want with design all you have to do is pick your favourite colour.
